FEEDBACK ANALYSIS AND ACTION REPORT – 2022-23

Government P. G. College, Maldevta, Raipur, Dehradun understand that an effective teaching-learning system followed by an educational institution needs continuous refinement. The college adopt a feedback system that takes suggestions from stakeholders of each program. This eventually helps to fine – tune teaching learning process and curriculum. Student feedback is taken for every course in each year to provide objective information to the faculty for self-improvement and development. The college cannot change the curriculum as it is designed by the University, but can make efforts and improvements to successfully impart it. With this purpose in mind, the suggestions given in feedback by students and teachers from various departments were studied and IQAC has made an action plan to be implemented in coming sessions.

1. Course plans for the next session would be prepared for more effective teaching and to ensure the timely completion of syllabus. Regular meeting with the faculty would be done and any delay in completion of syllabus would be supplemented with extra classes.
2. To create more interest in the subjects, ICT friendly teaching through power-point presentations has been introduced.
3. To enhance the interest of students, plans have been made to assign more action oriented projects/hands on training programs in courses to make students employable in the job market. Students would be encouraged to attend internship and would be taken for industrial visits/field visits to make them aware about the prevailing standards in various domains.
4. Different department have been advised to conduct workshops, certified programs, guest lectures by experts to fill the gaps in curriculum.
5. It is proposed to hold an orientation program for the teachers in the beginning of the session to improve the teaching standards.
